

3. réseaux régionaux, villes européennes

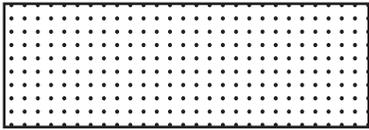

3.2

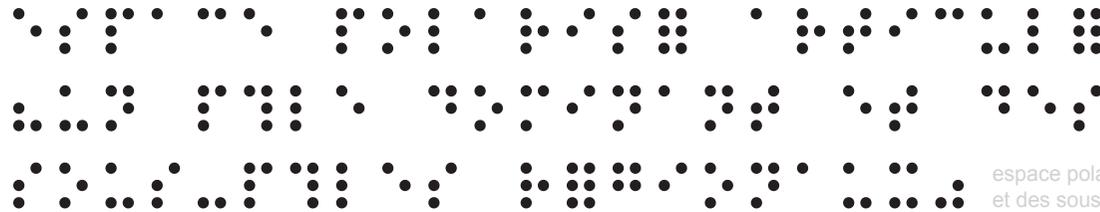

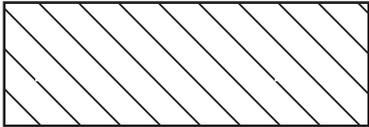

villes européennes ayant un rôle polarisant en France (nord au sud)

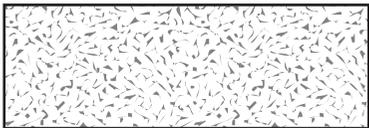

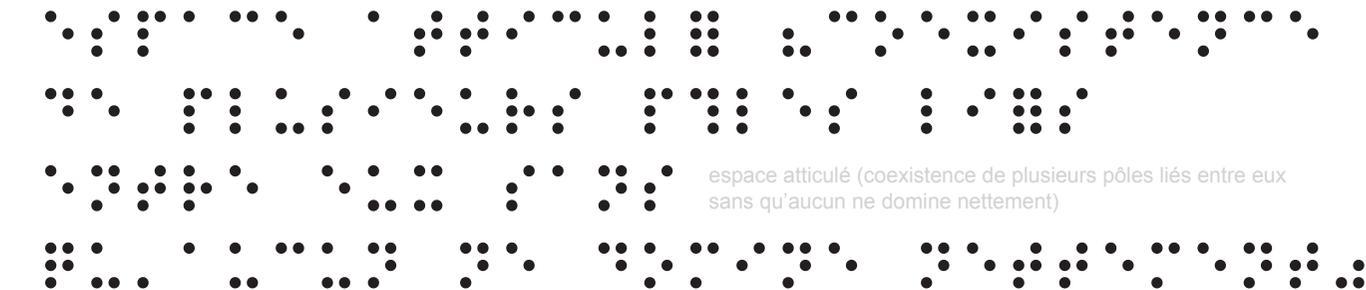

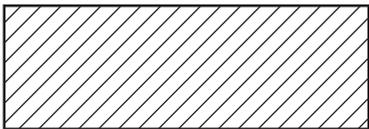

espace fortement polarisé
(un seul pôle dominant)

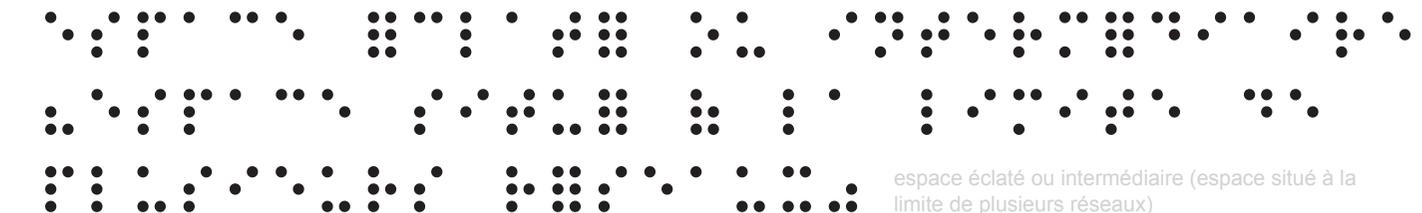

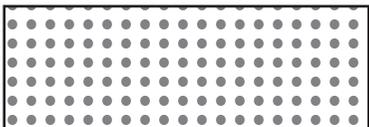

espace polarisé articulé (un pôle dominant
et des sous-pôles régionaux)

espace bipolaire

espace articulé (coexistence de plusieurs pôles liés entre eux
sans qu'aucun ne domine nettement)

espace éclaté ou intermédiaire (espace situé à la
limite de plusieurs réseaux)
