The diagrams are arranged in two rows. The first row shows the initial flock configuration. The second row shows the flock after one time step, with birds moving to adjacent grid cells. The diagrams illustrate the flock's movement and the emergence of a leader.

For example, the 'M' is formed by a vertical column of dots on the left and a series of dots on the right that curve upwards and then downwards. The 'A' is formed by a vertical column of dots on the left and a series of dots on the right that curve upwards and then downwards. The 'T' is formed by a vertical column of dots on the left and a horizontal row of dots on the right.
