

Prolifération du virus de la grippe

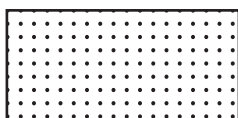

légende

virus de la grippe

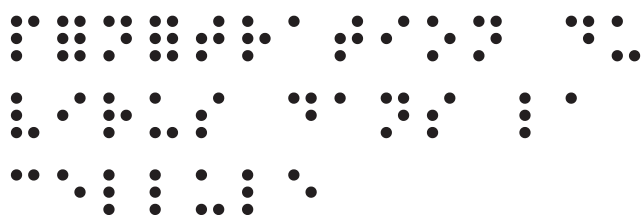

cellule hôte

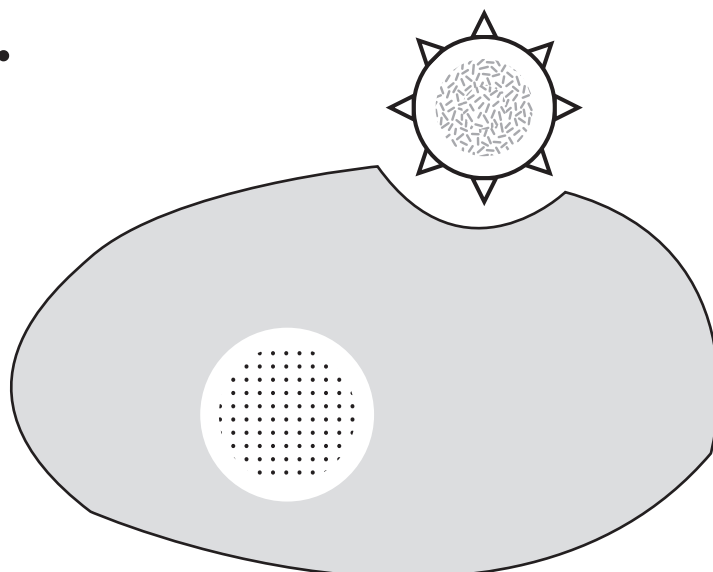

ADN de la cellule hôte

ADN du virus

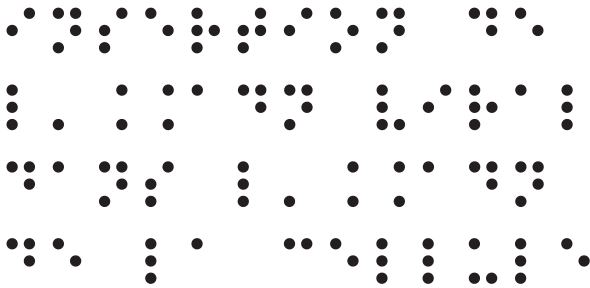

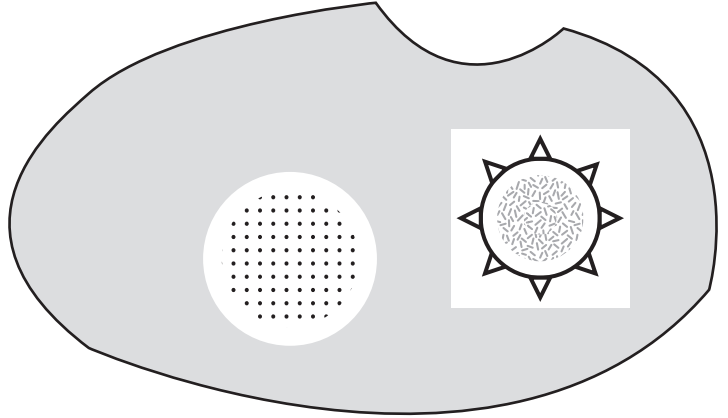

pénétration du virus dans la cellule

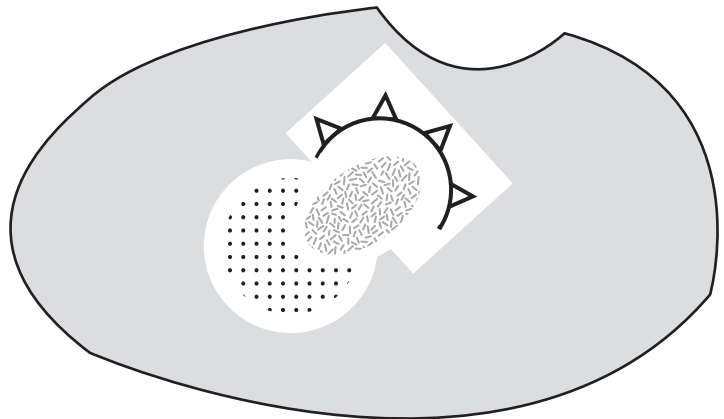

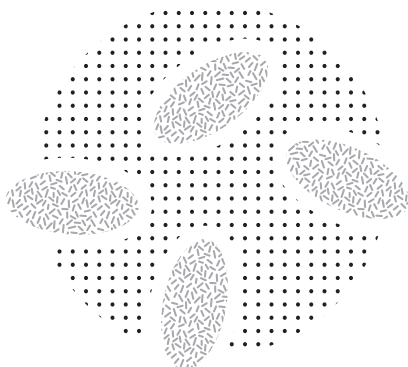

le virus est dans la cellule

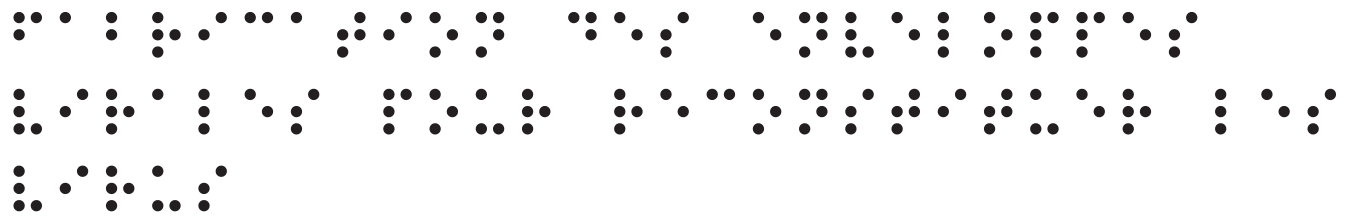

insertion de l'ADN viral dans l'ADN de la cellule

multiplication du matériel génétique viral

A diagram of a cell with a grey cytoplasm and a black outline. Inside, there are several organelles: a large nucleus with a dotted nucleolus, a large mitochondrion with internal folds, a large chloroplast with internal stacks, and several smaller vesicles or lysosomes.
